Understanding patient perspectives across four core dimensions (Says, Thinks, Does, Feels):

SAYS	THINKS
• 'Finding a reliable specialist takes too long.' • 'I hate sitting in crowded clinic waiting rooms for hours.' • 'I wish I could upload my reports before seeing the doctor.'	• 'Will the doctor understand my medical history?' • 'Is there a doctor available near me right now?' • 'Are my uploaded medical files kept private?'
DOES	FEELS
• Calls multiple clinics to check open time slots. • Carries bulky physical file folders to appointments. • Searches symptoms online, causing health anxiety.	• Anxious about health symptoms. • Frustrated by phone hold times and lobby delays. • Relieved when receiving instant booking confirmations.
